# Culture and excellence

## Culture@ASU

The ASU community is rich in many cultural, social and global traditions. Through Culture@ASU events and programming, students have many opportunities to engage with their peers in a globally aware context. Culture@ASU promotes identity, inclusion and expression to build a strong Sun Devil community reflective of ASU's charter. Students lead the initiative, collaborating to build intersectional programs that celebrate cultural identities, foster a sense of belonging on campus and help expand the cultural awareness of all Sun Devils. Follow Culture@ASU on social media to learn about heritage celebrations, civility on campus and many cultural events.

## Barrett, The Honors College

Barrett, The Honors College is designed to enhance the ASU undergraduate experience. Think of it as having dual citizenship in both Barrett and ASU. Barrett students have access to the vast resources of ASU while being part of a small living-learning community of scholars. In addition, they get personalized attention, exclusive faculty interaction, and special internship and research opportunities.

# Housing

## Welcome to your new home

At ASU, first-year students, also known as freshmen, live in a residence hall on the campus of their major. ASU's housing options come with many benefits, including:

- Nearby access to classes, professors, libraries and tutoring services.
- Nearby access to the fitness complex and dining halls.
- Furnished rooms with Wi-Fi and cable, and nearby laundry facilities.
- Common recreation and study areas, and community kitchens.
- Special programming and events for residence hall community members.

## Live with your classmates

If you are a first-year student, you will live in a residential college on the same floor as others in your academic program, meaning that from the start of your college experience, you'll have built-in study partners and friends.

Fact: On average, students who live on campus do better academically and are more likely to graduate than students who live off campus.

[asu.edu/livingoncampus](https://asu.edu/livingoncampus)

Note: Housing for upper-division and graduate students is not based on academic programs, and is limited on each campus and not guaranteed.

To succeed in college, you need a safe and healthy environment, and that's just what ASU offers. We provide an abundance of wellness resources to keep you feeling good and thriving, as well as a secure campus environment that enables you to focus on having a successful college experience.

"I lived on campus for four years. I really enjoyed it. First, the convenience — all of your friends are living in the same area as you. And I've made friends by living in the dorms. We study together and go to the dining hall together. I still have friends that I came in contact with my first year."

➔ Indicates an accelerated 4+1 degree program. ASU offers a streamlined path to a master's degree from ASU undergraduate programs, reducing the time it takes to get a master's degree from two years to one year.

⊗ Indicates a concurrent degree program. ASU offers high-achieving graduate students the opportunity to complete two distinct but complementary graduate degrees at the same time.

⊕ A two-year program is for applicants who have completed a four-year undergraduate degree in the same discipline as the graduate program. A 3+ program is for applicants with an undergraduate degree in a discipline different than the graduate program.

## Resources and academic engagement

### International Students and Scholars Center

ASU's International Students and Scholars Center, or ISSC, is here to help you maintain compliance with visa regulations, as well as provide programming and advising to enrich your ASU experience.

The ISSC staff members are experts in assisting international students, and provide assistance and guidance on visa compliance, immigration advising and employment authorizations. Cultural engagement plays a huge part in the international student experience as well. The ISSC will help you adapt to academics at ASU, adjust to cultural differences with language assistance, and engage with university and community activities that help promote international awareness.

Through these resources, the ISSC helps students explore what it means to be a global citizen and engage with others who share a world-community mindset.
