

## DIGIPEN INSTITUTE OF TECHNOLOGY

Since 1988, DigiPen Institute of Technology has been preparing students for lifelong learning and success.

An educational pioneer, we were the first college in the world to offer a bachelor's degree in video game technology and development. Today, we offer a wide range of programs spanning art, design, and computer science. Through a combination of academic rigor and interdisciplinary team-based projects, our educational model empowers students to be active learners, bold problem-solvers, and talented creators — ready to tackle new challenges with passion and knowledge.

### ADMISSION REQUIREMENTS

Admission requirements vary by degree program. For the most up-to-date information on specific requirements, please visit the DigiPen website: [digipen.edu/admissions/how-to-apply/undergraduate-admissions-requirements](https://digipen.edu/admissions/how-to-apply/undergraduate-admissions-requirements)

In addition to the typical requirements for undergraduate applicants, international applicants must also provide the following materials to be considered for admission to DigiPen:

- Academic records
- Financial Responsibility Form
- Proof of proficiency in the English language (for non-native English speakers)

For more information, go to: [digipen.edu/admissions/how-to-apply/for-international-applicants](https://digipen.edu/admissions/how-to-apply/for-international-applicants)

### A GLOBAL COMMUNITY

International students make up approximately 14% of DigiPen's student body. Past students have come to DigiPen from 59 different countries.

### STUDENT SERVICES DURING COVID-19

While the delivery format may be different, essential DigiPen student services continue to be made available. These services include mental health counseling, student advising, career services, DigiPen Housing, library services, the on-campus Bits and Bytes Café, and more.

#### Advising for International Students

International student advising is available online, Monday through Friday. We can provide consultation on student visas, employment, immigration-related questions, and more.

#### Student Employment

International students at DigiPen can work part-time, either on-campus or remotely.

#### Online Tutoring

Tutoring services are free for DigiPen students and can be conducted online via Microsoft Teams.
