Who We Serve

The Office of International Student Services staff supports more than just those in the USA on a student visa. We also serve U.S. citizens with international credentials, permanent residents, asylees, refugees, DACA, and undocumented students.

The International Student Organization is a student-run club that offers social and cultural opportunities to IU South Bend's international students, such as monthly field trips to locations around the Michiana region.

Our International Food Festival (April) has taken place for over 20 years, and invites students and members of the community to come together to prepare and serve meals from their home country.

International Education Week (November) is a week-long celebration of international students and international culture on campus. Each year the week culminates in our all-campus International Thanksgiving Lunch - check out our feature in Voice of America!
