

University of Colorado Boulder

University of Colorado Boulder

The University of Colorado Boulder, home to 3100+ international students from 106 countries, has a dynamic and diverse community of scholars and students. Located at the base of the Rocky Mountains, our Tier 1 research university is one of 36 US public research universities in the Association of American Universities. We welcome an innovative culture, where students and faculty collaborate to test new concepts. Students are encouraged to engage with our creative labs and entrepreneurial events where they're able to question, experiment, seek answers, and find solutions. Innovation and research are an integral part of the CU Boulder experience and for the 17-18 year, we received \$511.1 million in sponsored research funding.
